

## PIPELINE ENHANCEMENT

April 12, 2016

**REVISED Construction Notification – Changes in Bold**

Dear **Customer**,

As part of our system-wide plan to enhance our natural gas pipeline throughout the communities we serve, I want to let you know we'll be in your area soon to perform pressure testing and replacement on sections of one of our natural gas pipelines.

### PROJECT DETAILS:

<b>Projected Start Date:</b>	The week of April 25, 2016
<b>Projected End Date:</b>	<b>Through July 2016</b> , although weather and other factors could affect the schedule.
<b>Construction Locations:</b>	The construction will take place on Carlton Hills Boulevard between Carlton Oaks Boulevard and Mission Gorge Road in the City of Santee
<b>Construction Times:</b>	<p>Construction work on Carlton Hills Boulevard north of the San Diego River Bridge will take place at night and will occur primarily Monday through Friday from 9:00 p.m. – 6:00 a.m.</p> <p>Construction work on Carlton Hills Boulevard south of the San Diego River Bridge will be a combination of day work and night work, with the day work taking place Monday through Saturday from 7:00 a.m. – 5:00 p.m. and the night work Monday through Friday from 9:00 p.m. – 6:00 a.m.</p>
<b>Laydown Yard:</b>	Located at 1756 Weld Boulevard, El Cajon, CA, 92020
<b>Laydown Yard Times:</b>	SDGE will ensure that trucks entering or exiting any working areas after 10:00 p.m. or before 7:00 a.m. utilize noise reduction efforts including minimizing back-up alarms and looped circulation in the yard. Pre-fabrication activities will be limited after 10:00 p.m.
<b>No Service Interruption:</b>	Your gas service should continue without interruption however if something changes, an SDGE representative will contact you.
<b>Access:</b>	<b>Access to your property will be preserved for the duration of the project. However please expect traffic delays due to construction.</b>

### What to expect

During construction lane closures and detours will be in place to assist the flow of traffic. In the construction areas, **electronic message boards**, traffic control cones, signs and flagmen will be used as needed. For updates and more specific information please visit <http://www.sdge.com/key-initiatives/pipeline-safety-enhancement-overview> as we will be updating information on a regular basis.

### The odor of natural gas

You may smell the odor of natural gas and hear a loud, steady noise as we vent natural gas from the pipeline using safe and common techniques. Although this is normal when crews are working, we encourage anyone who has concerns about the smell of gas to call us from a safe location at **1-800-611-7343**.

We apologize for any inconvenience you may experience while we're performing this replacement, and appreciate your patience and cooperation. Your gas service should continue without interruption. If that changes, we'll contact you. Please contact me with any questions at the number below. This letter does not require any action on your part.

Sincerely,

Cameron Durckel, Public Affairs Manager  
Office: (858) 636-5781
